- This course is designed to prepare you for the TExES Bilingual Generalist EC-6 Exam. The information in this course encourages methods of study that will help the learner retain more information in a shorter amount of time. This course is designed to strengthen the analysis and synthesis skills of the learner, which is key in passing the TExES Exam. The course has expanded upon the SBEC study materials to include background information, definitions, examples, key concepts, and has presented the material in an easy-to-study format.
