

# AUTOMOTIVE TECHNOLOGY

---

The Automotive Technology Program at Laredo College is designed to equip students with the skills and knowledge necessary for a successful career in the automotive industry. The program's comprehensive curriculum combines hands-on training with theoretical instruction, ensuring that graduates are well-prepared to meet the demands of today's fast-paced automotive environment. Courses cover a wide range of topics, including engine performance, electrical systems, brake systems, and automotive diagnostics, ensuring a well-rounded education. The program prepares students for various industry certifications, enhancing their employability and credentials in the job market. Join the Automotive Technology Program at Laredo College and drive your future forward in a rewarding and dynamic industry.

Students must possess the reading, writing, and math skills necessary to enter the program. They should consult with a program advisor for entry level.
